

Everything Is Beautiful

ATB

Wake up, it's time
Don't fear the light
Been asleep for eternity
And now you walk amongst your dreams

You know it's home when everything is beautiful
Feel safe and warm, soaking in the desert sun
Has my heart, heals my soul
Everything is beautiful

Colors combine
Painted all across the sky
No disguising, you're far too bright
Own your journey, own your life

Wake up, it's time
Don't fear the light
Been asleep for eternity
And now you walk amongst your dreams

Has my heart, heals my soul
Everything is beautiful
(2x)

You know it's home when everything is beautiful
Feel safe and warm, soaking in the desert sun
Has my heart, heals my soul
Everything is beautiful
