

Shooting stars above the city lights
Fill the space between you & I
Fill the space between you & I
Falling deep into the dark
For one moment we forgot
Who we are

Don't let it fade,
Winter breaks
In the morning light
Hold on to the night
Don't let it fade,
Winter breaks
In the morning remember
Hold on to the night

Oh-oh, ooh ooh
Yeah ye-yeah

And now I look up to the sky
For shooting stars above the city lights
But empty spaces in the dark
Filled with nothing, but our tiny spark!
Hold on to the night
Hold on to the night
Oh-oh, ooh ooh
Yeah ye-yeah

Don't let it fade,
Winter breaks
In the morning light
Hold on to the night
Hold on to the night
