

At a time
In situations
When you want a thing more than you should

You would fall
You would crumble
By picking up the pieces from the storm

That was when you said
You least expect it
That was when you asked
How did we get this far
So far

That was when I wanted
To correct it
But I guess there's nothing
Wrong with being wrong
At all

And I can't do it any other way
Repeat I'd do it all the same way
And I won't justify
One more time

I can't do it any other way
Repeat I'd do it all the same way
And I won't justify
One more time

And it's fine
To complicate it
Complicated is all I've ever known

I was there
Did you see me
Frozen in a flash put on the wall

But now is when I guess
I least expect it
But I will never ask
How did we get this far
My God

Even if I doubt for just a second
I can still find the right in being wrong
So wrong

I can't do it any other way
Repeat I'd do it all the same way
And I won't justify
One more time

I can't do it any other way
Repeat I'd do it all the same way
And I won't justify
One more time
