

Stars Come Out

ATB

See me rise, watch me fall
I'm not steady at all
Cause sometimes, life hurts like hell
I know this too well

When it's dark, the stars come out
And for a moment we are saved
Yeah when it's dark, in your darkest hour
Stars come out

Birds fly south, winter's blue
I'll put my faith in you
Cause sometimes, life hurts like hell
I know this too well

When it's dark, the stars come out
And for a moment we are saved
Yeah when it's dark, in your darkest hour
Stars come out

When it's dark, the stars come out
And for a moment we are saved
Yeah when it's dark, in your darkest hour
Stars come out
