

Walking Awake

ATB

Far far far away
Standing at the interstate
Misplaced memories
All my thoughts are lost at sea
Only half the sacrifice
Only half the life
Far far far away
This is where I came to stay

Cause we are, never walking
We are, never walking awake, awake
Never walking awake, awake
Never walking

Far far far away
Out of body I will stay
Replace the memories
That I couldn't bring with me
The less that I can feel
The further I can go
Far far far away
Into the hallow

Cause we are, never walking awake
Never walking awake
We are, never walking awake, awake
Never walking awake
We are, never walking awake
Never walking, never walking awake
Never walking, never walking awake
Never walking, never walking awake
Never walking, never walking awake
Never walking awake
