

Moment In Time

ATC

A special moment in my life
I can't believe you made it real
The moment in time baby is you
The stop this being high up mine
To spend it hanging on the line
You're just a special moment in time
(You're just a special moment in time)

R: The moment a man walked on the moon
The moment I hear you're be don't too
The moment in time our moment in time
The second's a satisfaction grace
The moment a TV-wonder sees
The moment in time our moment in time

Afraid of every passive day
Afraid a graf in every way
The moment in time baby is you
My memories start on revind
And still of you inside my mind
You're just a special moment in time

R:

The moment I looked at you
The moment you said you know

The moment a man walked on the moon
The moment I hear you're be don't too
The moment a man walked on the moon
The moment I hear you're be don't too
