

# If You Want Me To

Athenaeum

Well, hey, is there something that you want me to say  
For I would surely say it right away, ok  
If you want me to, I will

And here were come  
Years gone by  
And I've nothing to show  
And you know I've always been afraid of letting go  
And if you want me to, I will

Chorus

And you will see  
That I speak honestly  
And I will beg you please  
I'll be on my hands and knees  
If you want me to (3x)  
I will, yes I will

Now I know  
'cause I spent time with myself and it shows  
That I could never have the strength to live my life alone  
But, if you want me to, I will

And I look all around  
Autumn left it's leaves on the ground  
And I could never have the will to let you down  
But if you want me to, I will

Chorus

Woah - oh, yes I will  
Yeah...
