

## I Love

## Athlete

Fire on the hill  
fire in me still  
I feel out of my league  
but you turn around and say to me that  
I love everybody here  
and I agree  
I love everybody here

Summers long gone out  
Sun comes up like its been about a year  
But I dont mind if we drink again my friend cos,  
there is so much left to say

There is so much left to say  
There is so much left to say  
There is so much left to say

People for miles  
opening up  
People for miles  
and focusing on  
we'd be ok if we had  
answers to questions and rhymes and in reasons  
should leave it to me to be all the four seasons

You see I love everybody here  
And I agree I love everybody here  
I love everybody here  
I love everybody here  
Well I love everybody here  
I love everybody here  
Life is beautiful for sure  
Cos I love everybody here
