

## Rubik's Cube

### Athlete

The world is too heavy  
Too big for my shoulders  
Come take this weight off me now

Thousands of answers  
To one simple question  
Come take this weight off me now

Oh I'm like a kid who just won't let it go  
Twisting and turning the colours in rows  
I'm so intent to find out what it is  
This is my Rubik's cube  
I know I can figure it out

Lost in the playground  
Late night nostalgia  
Open the sky for me now

Friends round the fire  
Outside in December  
Open the sky for me now

Oh I'm like a kid who just won't let it go  
Twisting and turning the colours in rows  
I'm so intent to find out what it is  
This is my Rubik's cube  
I know I can figure it out

Credits roll over the edge of horizons  
That I haven't discovered yet

Oh I'm like a kid who just won't let it go  
Twisting and turning the colours in rows  
I'm so intent to find out what it is  
This is my Rubik's cube  
I know I can figure it out

Oh I'm like a kid who just won't let it go  
Twisting and turning the colours in rows  
I'm so intent to find out what it is  
This is my Rubik's cube  
I know I can figure it out
