

# Shake Those Windows

**Athlete**

Lives in edinburgh  
Just across the road  
Sometimes my stereo and in my aching bones  
Its on the sugar hill and in your ringtone

Shake those windows  
Songs and songs and beats and rhymes in life  
This blackout it just helps to love those clear night skies

Just let the record play and bring it back again  
You can't appreciate what we were into then  
In two seconds the beat was recognised  
And all the old school heads nodded back in time  
And though we just met i've known you all my life

Shake those windows  
Songs and songs and beats and rhymes in life  
This blackout it just helps to love those clear night skies

Just let the record play and bring it back again  
You can't appreciate what we were into then  
Just let the record play and bring it back again  
You can't appreciate what we were into then

Just let the record play and bring it back again  
You can't appreciate what we were into then  
Just let the record play and bring it back again  
You can't appreciate what we were into then

Just let yourself go  
Just let yourself go  
Just let yourself go  
Just let yourself go

Just let yourself go  
Just let yourself go  
Just let yourself go  
Just let yourself go
