

The Unknown

Athlete

Let your world be wide open
And your fears be blown apart
May your voice be louder than bombs
Somewhere in silence find one to trust

Lift your head up
Untie the knot
My little sunshine
Hope is never light-years away

Let your senses be ignited
By streams of neon singing in the dark
Connected to the planet
A million neighbours
A sea of stars

Lift your head up
Untie the knot
My little sunshine
Hope is never light-years away

Leaders, lovers come and go
Outside forces you can't control
Oh I see you smiling at the unknown
Oh I see you smiling at the unknown

Lift your head up
Untie the knot
My little sunshine
Hope is never light-years away

Lift your head up
Untie the knot
My little sunshine
Hope is never light-years away
