

The Atlantean Kodex

Atlantean Kodex

Beyond the veils of time
Where past and future intertwine
Where written history subsides
Subconscious memories arise
Five keepers hold the keys
To unlock the gate of dreams
Behind the wall of sleep
Where Choronzon lies in wait

Behold the Urkraft, behold the sacred force
We strike with the wrath of the rightful
We wield the invincible puritan blade
Behold the fire, behold the force
We command the iron battalions
In the dawn of this new iron age

Sorcerers of yore wove mighty spells
While swords met shields like ringing bells
In places deep where dark things sleep
In hollow halls where dead kings weep
Where harps once sang with joy
Of the splendour, now buried beneath the seas

Behold the Urkraft, behold the sacred force
We strike with the wrath of the rightful
We wield the invincible puritan blade
Behold the fire, behold the force
We command the iron battalions
In the dawn of this new iron age

The days are growing darker
And what the coming age might hold
Even the wisest among us cannot say
And though some things are better left undisturbed
We must not bury the past
Or we will be buried by the future
