

Baby Come Back To Me

Atlantic Starr

Ooh baby come back to me
Remember how it used to be
Paradise is just out of reach
Baby won't you please come back to me

Another night here alone
Staring at the telephone
Willing you to make that call
To bring you back where you belong

It's been three hard weeks
Baby the longest nights
I need to hear your voice
And feel your soft skin by my side

We said things that we shouldn't have
I take back every word
Don't you know I can turn back time
It's only you and I to pay the price

Ooh baby come back to me
Remember how it used to be
Without you I'm incomplete
I feel the pain with every heartbeat
Ooh baby come back to me
Inside I'm dying piece by piece
Paradise is just out of reach
Baby won't you please come back to me

The day that we said goodbye
No holding back the tears we've cried
Searching for the reasons why
We let this love just fade and die

All the riches in the world
All the diamonds and the pearls
Live to stand the winds of change
To bring you back to me again

Ooh, say if we can feel this pain
Turn the spark into a flame
I know that we can bring it back again
So baby please can't you see I'm down on my knees

Ooh baby come back to me
Remember how it used to be
Without you I'm incomplete
I feel the pain with every heartbeat
Ooh baby come back to me
Inside I'm dying piece by piece
Paradise is just out of reach
Baby won't you please come back to me

You're in every, every breath I breathe baby
