

# Baby Come Back To Me

Atlantic Starr

Ooh baby come back to me  
Remember how it used to be  
Paradise is just out of reach  
Baby won't you please come back to me

Another night here alone  
Staring at the telephone  
Willing you to make that call  
To bring you back where you belong

It's been three hard weeks  
Baby the longest nights  
I need to hear your voice  
And feel your soft skin by my side

We said things that we shouldn't have  
I take back every word  
Don't you know I can turn back time  
It's only you and I to pay the price

Ooh baby come back to me  
Remember how it used to be  
Without you I'm incomplete  
I feel the pain with every heartbeat  
Ooh baby come back to me  
Inside I'm dying piece by piece  
Paradise is just out of reach  
Baby won't you please come back to me

The day that we said goodbye  
No holding back the tears we've cried  
Searching for the reasons why  
We let this love just fade and die

All the riches in the world  
All the diamonds and the pearls  
Live to stand the winds of change  
To bring you back to me again

Ooh, say if we can feel this pain  
Turn the spark into a flame  
I know that we can bring it back again  
So baby please can't you see I'm down on my knees

Ooh baby come back to me  
Remember how it used to be  
Without you I'm incomplete  
I feel the pain with every heartbeat  
Ooh baby come back to me  
Inside I'm dying piece by piece  
Paradise is just out of reach  
Baby won't you please come back to me

You're in every, every breath I breathe baby
