## **Baby Come Back To Me**

## **Atlantic Starr**

Ooh baby come back to me Remember how it used to be Paradise is just out of reach Baby won't you please come back to me

Another night here alone Staring at the telephone Willing you to make that call To bring you back where you belong

It's been three hard weeks Baby the longest nights I need to hear your voice And feel your soft skin by my side

We said things that we shouldn't have I take back every word Don't you know I can turn back time It's only you and I to pay the price

Ooh baby come back to me Remember how it used to be Without you I'm incomplete I feel the pain with every heartbeat Ooh baby come back to me Inside I'm dying piece by piece Paradise is just out of reach Baby won't you please come back to me

The day that we said goodbye No holding back the tears we've cried Searching for the reasons why We let this love just fade and die

All the riches in the world All the diamonds and the pearls Live to stand the winds of change To bring you back to me again

Ooh, say if we can feel this pain Turn the spark into a flame I know that we can bring it back again So baby please can't you see I'm down on my knees

Ooh baby come back to me Remember how it used to be Without you I'm incomplete I feel the pain with every heartbeat Ooh baby come back to me Inside I'm dying piece by piece Paradise is just out of reach Baby won't you please come back to me

You're in every, every breath I breathe baby
