

# Shower Me With Your Love

Atlantic Starr

My heart is filled with so much love  
And I need someone I can call my own  
To fall in love, that's what everyone's dreaming of  
I hold this feeling oh so strong

Life is too short to live alone  
Without someone to call my own  
I will care for you, you will care for me  
Our love will live forever

Shower me with your love  
Shower me with the love that I long for  
Shower me with your love  
Shower me with the love I've been waiting for

I close my eyes and pray all my wishes come true  
Every night I go to sleep  
Until you're mine I'll wait for you endlessly  
Can't you see

Fairy tales they do sometimes come true  
If you believe, it could happen to you  
Like the stars that shine way up in the sky  
Our love will live forever

Shower me with your love  
Shower me with the love that I long for  
Shower me with your love  
Shower me with the love I've been waiting for

Like the stars that shine way up in the sky  
Our love will live forever, live forever

Shower me with your love  
Shower me with the love that I long for  
Shower me with your love  
Shower me with the love I've been waiting for  
Shower me with your love  
Shower me with the love I've been waiting for
