

# Thankful

Atlantic Starr

This song is just a simple little message  
There's no heavy thing  
It's just a mere reminder for those of us who  
Sometimes forget just how good we are

Life is something we pretend to take for granted  
We've gotta it so good that we're hard to satisfy  
It would be so nice if we lead towards appreciation  
It's not hard if just we try

You should tell the child that only has bread and butter  
That some folks have no bread at all  
And the man that has no fortune  
That hasn't still found someone to love  
He should stand just as tall

That's why I'm thankful for every morning that I rise  
I'm thankful whether God sends rain or blue sky  
I'm thankful 'cause I can clearly see  
His love for you and me

Hey, looking back through the years when I was very young  
I used to dream of becoming a star  
Even though I was [Incomprehensible], I was patient because of You  
In time I would grow fine

There were many obstacles that were in my way  
I could have done bad things and been locked away  
But with lot of attention from my family  
Success is seen this day

I'm thankful for every morning that I rise  
I'm thankful whether God sends rain or blue sky  
I'm thankful 'cause I can clearly see  
His love for you and me

If we only stop to count our blessings  
We'll find that there will be no time to complain  
Oh, what we don't have, that's not the best thing  
'Cause the most important things in life we can always gain

That's why I'm thankful  
Thankful, thankful  
His love

That's why I'm thankful for every morning that I rise  
I'm thankful whether God sends rain or blue sky  
I'm thankful 'cause I can clearly see  
His love for you and me

Thankful, thankful  
I'm thankful  
Thankful 'cause I can really see  
His love
