

A Perfect End

Atlas Genius

There's always time to start over again
'Cause if we're done with this, all of this
Let's wash away everything that we've been
I know you're done with this, all of this
It's time to hit the ground

So let it fall
And watch it break into shards of light and gold
A perfect end
All eyes fixated on new dreams
Cascading

Yeah we got stuck in between
The act and just what we need
So rally up, gather round
It's time to hit the ground

So let it fall
And watch it break into shards of light and gold
A perfect end
All eyes fixated on new dreams
Cascading

It all starts again
Cascading

Oh don't wait
We'll get it right this time
Oh don't wait
We've all been up for days

So let it fall
And watch it break into shards of light and gold
A perfect end
All eyes fixated on new dreams
Cascading

It all starts again
Cascading
