

# The City We Grow

Atlas Genius

I've been thinking the same as you  
We could try to build this place again  
We could start with a motion  
I know you can feel the emotion  
Let's not act like we've got the time to waste  
To throw into this game  
We're not that far away

We walk the sun as we go  
Into the city we grow  
Become the love we sow  
Into the city we grow

Now we're on the same paths  
There's a reason to cross this great divide  
We're driven by the emotion  
I know you feel this emotion  
Let's not act like we've got the time to waste  
Throw in this game  
We're not that far away

We walk the sun as we go  
Into the city we grow  
Become the love that we sow  
Into this city we grow

We walk the sun as we go  
Into the city we grow  
Become the love that we sow  
Into this city we grow

We walk the sun as we go  
Into the city we grow  
Become the love that we sow  
Into this city we grow

Into this city we grow
