

An Orchid

Atlas Sound

I watched the orchids
They rot outside
In the garden

Will you provide
What they need
To survive?
Will you provide
What they need
To survive?

An orchid inside me
We will save the best ones
For the ending
An orchid survived
It's dry outside
But we prefer that heat

Will you provide
What I need
Will you provide
What I need
What I need
What I need...

An orchid dies
Each time you keep
A child crying

And what makes you lie
To me
I think your eye
Will reveal

An orchid dies
Each time
A child cries

An orchid dies
Each time...
