

Any way the bases feel  
You will be fine without

Watch as the dust takes down  
The victim's mind

Bordering on imperfection's license  
Everywhere I look I see a light  
That tells me where I am

The day got blown  
The day went by so fast  
I've been thinking that there is a day  
That will not come to pass  
And baby you will see  
Your light will pass  
Oh oh, baby you will see  
Oh ooh oh your light will...

Everywhere I look  
There is a light

Everywhere I look  
There is a light and  
There's no pain

Everywhere I look  
There is a light  
And it will guide the way
