Te Amo

Atlas Sound

Te amo
Pretend you know the way out of the trap
And we will go to sleep
And we'll have the same dream

You can come around When you're down You're always down Always down

When you're down You're always down You're always down

Te amo
I'll pretend you were the only one
And we will go to sleep
And we'll have such strange dreams

You can come around When you're down You're always down You're always down
