

# Ashes

Atom Smash

Sleeping with the dogs and it's only getting worse  
I keep taking taking pills 'cause it fuels my curse  
Down on my luck, my friend, it's time to repent

I'm living on the ashes, I'm living on the ashes  
Those that came here before lit a fire in my soul again  
I'm living on the ashes, I'm living on the ashes  
Of the fallen stars let them light up the sky tonight

Living out my days like Bonham, Dime and Cobain  
Let's wake the dead tonight just to hear them sing  
Let's call down the gods, my friends, it's time to repent

I'm living on the ashes, I'm living on the ashes  
Those that came here before lit a fire in my soul again  
I'm living on the ashes, I'm living on the ashes  
Of the fallen stars let them light up the sky tonight

Waking the dead, waking the dead, woke 'em up

Let's call down the gods, my friends, it's time to repent

I'm living on the ashes, I'm living on the ashes  
Those that came here before lit a fire in my soul again  
I'm living on the ashes, I'm living on the ashes  
Of the fallen stars let them light up the sky tonight
