

# Do Her Wrong

Atom Smash

Never get high, never get dry  
Never make love, love's not my way, girl  
Never make up, only break up  
Pull my shades up, up this time to wake up

Never break down, never get found  
Better catch up, up 'cause I'm on my way, girl  
Never slow dance, never romance  
Gotta have more, more stimulation

Town to town, across the nation  
I never met a girl that could change my way, son

She can be the one, she can be the angel  
She can get me high, she can be my savior  
If the right one came along  
God knows I'd do her wrong

She can be a saint, she can be a looker  
She can make love, fuck like a hooker  
If the right one came along  
God knows I'd do her wrong  
Do her wrong, do her wrong

Never play nice, only tell lies  
Never hit twice, twice is not my way, girl  
We can get loud on the low down  
In and I'm out, out on the ledge girl

Get what I want and I'm on my way, son  
I play my song then I change the station

She can be the one, she can be the angel  
She can get me high, she can be my savior  
If the right one came along  
God knows I'd do her wrong

She can be a saint, she can be a looker  
She can make love, fuck like a hooker  
If the right one came along  
God knows I'd do her wrong

The wrong way, the only way I know  
Gotta take the highway, yeah, yeah  
It's the only way I go

Then one day I caught a kiss  
From a goddess and her lips  
Made me close my eyes like never before  
Said she's come to take me home

She can be the one, she can be the angel  
She can get me high, she can be my savior  
If the right one came along  
God knows I'd do her wrong

She can be a saint, she can be a looker

She can make love, fuck like a hooker  
If the right one came along  
God knows I'd do her wrong

This can be the one, this can be the angel  
She can get me high, she can be my savior  
Whoa, whoa

This can be a saint, this can be a looker  
This could be the one, fucks like a hooker  
Do her wrong, do her wrong  
Do her wrong, do her wrong
