

Kill Me

Atom Smash

Wide awake with the pain I suffer
Suffocate as I'm going down
I can't hear myself but
I enjoy the sound
That you make when you take me under
Silhouette of a snake turned out

I can't help myself
I can't shake the way
She loves me
Just enough to kill me
Just enough to bring me to my knees
She holds me
Long enough to break me
Long enough to steal the air I breathe
Your pulling me down
Your knocking me down to size

On the edge of the gun oh mother
Silhouettes of a snake burned out
I can't separate i adore the shape
That you take won't you take me under
You turn it up then I come back down

I can't help myself
I can't shake the way she loves me
Just enough to kill me
Just enough to bring me to my knees
She holds me
Long enough to break me
Long enough to steal the air I breathe
Your pulling me down
Your dragging me down like an anchor
On my heart
And it's like your pulling me down
You knocking me down
To size to size to size yeah

She loves me
She holds me
She kills me
The way she loves me
Just enough to kill me
Just enough to bring me to my knees
She holds me long enough to break me
Long enough to steal the air I breathe
And your pulling me down
Your dragging me down like an anchor on my heart
Its like your pulling me down
You dragging me down like an anchor on my heart
Your pulling me down your knocking me down to size
