

On a hot street gone, on a killing spree
Never mind, trying to lay low down in Mexico, sea side
Where I wait this out
Out of my mind, with the plastic gulls, and the ghosts are.
Let it all hang out
I can hardly breathe, hardly talk, I don't see anything at all
except you
You're the end of me, I'm the end of you (so shoot me)
It's the heat, it's you walk, girl, it's in everything you are
To here's to the end of me, the end of you (so shoot me)
Well the eyes sees, what the eyes sees
Pay no mind
To the blood stains, to the rail road, gun shot
Whit a twist of lime
She's out of this world, and her body lies, where the gulls are
?
Let it all hang out
I can hardly breathe, hardly talk, I don't see anything at all
except you
You're the end of me, I'm the end of you (so shoot me)
It's the heat, it's you walk, girl, it's in everything you are
To here's to the end of me, the end of you (so shoot me)
I'll let it all hang out
(I'll let all hang out)
I'll let it all hang out
I can hardly breathe, hardly talk, I don't see anything at all
except you
You're the end of me, I'm the end of you (so shoot me)
It's the heat, it's you walk, girl, it's in everything you are
To here's to the end of me, the end of you (so shoot me)
I can hardly breathe, hardly talk, I don't see anything at all
except you
You're the end of me, I'm the end of you (so shoot me)
It's the heat, it's you walk, girl, it's in everything you are
To here's to the end of me, the end of you (so shoot me)
