

# If You Come To Me

Atomic Kitten

So long ago  
I didn't have a care about me  
I didn't know my right from wrong  
But now I know  
That you got your love around me  
You know it makes me feel so strong

Baby if you turn around  
And prove to me it's real  
Maybe we can work it out  
Coz this is how I feel

Do you know where you go when you give it all away  
I'll be there for you, care for you  
Love you everyday oh baby  
And do you feel the same for me?  
Any day ,everyway  
When I feel a little low  
I would cry for you, die for you  
Just to let you know oh baby  
And if you come to me you know I'll make it right

Through all my life  
I never thought I'd have somebody  
Someone to call my own  
And now I've found  
A little bit of heaven baby  
A place to call my own

Baby if you turn around  
And prove to me it's real  
Maybe we can work it out  
Coz this is how I feel

Do you know where you go when you give it all away  
I'll be there for you, care for you  
Love you everyday oh baby  
And do you feel the same for me?  
Any day, everyway  
When I feel a little low  
I would cry for you, die for you  
Just to let you know oh baby  
And if you come to me you know I'll make it right

Babe don't you know  
You gotta slow down before you know  
You're gonna break down and turn around  
Before you know, you go and break my heart  
When will you learn to be  
A little helpful when you think of me  
A little careful when you're close to me  
Coz baby I loved you from the start

Baby if you turn around  
And prove to me it's real (yeah yeah)  
Maybe we can work it out  
Coz this is how I feel (coz this is how I feel...)

(I love you babe,  
When you'd go, I would cry  
I would die...2x)

Do you know where you go when you give it all away  
I'll be there for you, care for you  
Love you everyday oh baby  
And do you feel the same for me?  
Any day, every way  
When I feel a little low  
I would cry for you, die for you  
Just to let you know oh baby yeah yeah

(I love you babe,  
When you'd go, I would cry  
I would die...2x)

Do you know where you go when you give it all away  
I'll be there for you, care for you  
Love you everyday oh baby  
And do you feel the same for me?  
Any day, every way  
When I feel a little low  
I would cry for you, die for you  
Just to let you know oh baby  
And if you come to me you know I'll make it right
