

Moment You Leave Me

Atomic Kitten

1. You make me believe

You are the one for me it seems
But now, I've found it hard
The way you treated me, it's mean
Cause time after time I keep changing my mind
And I can't get myself over you (wuhuúú)

R: The moment you leave me

The moment you're gone
I don't think that I could last another minute
But when we're together
There's something so strong
And I don't think that we will ever find a limit
It's going on

2. Each time you were down

I helped you on your feet but then
Just as soon as you were ready too
You leave me on my own again
Cause time after time I keep changing my mind
And I can't get myself over you

R: The moment you leave me...

*: When you lied that you love me

And spoke promises that you couldn't keep
How I tried to believe you when my tears they just cut so deep
And I can't get myself over you

R: The moment you leave me... (3x)
