

# Moment You Leave Me

Atomic Kitten

1. You make me believe

You are the one for me it seems  
But now, I've found it hard  
The way you treated me, it's mean  
Cause time after time I keep changing my mind  
And I can't get myself over you (wuhuúú)

R: The moment you leave me

The moment you're gone  
I don't think that I could last another minute  
But when we're together  
There's something so strong  
And I don't think that we will ever find a limit  
It's going on

2. Each time you were down

I helped you on your feet but then  
Just as soon as you were ready too  
You leave me on my own again  
Cause time after time I keep changing my mind  
And I can't get myself over you

R: The moment you leave me...

\*: When you lied that you love me

And spoke promises that you couldn't keep  
How I tried to believe you when my tears they just cut so deep  
And I can't get myself over you

R: The moment you leave me... (3x)
