Moment You Leave Me

Atomic Kitten

- 1. You make me believe You are the one for me it seems But now, I've found it hard The way you treated me, it's mean Cause time after time I keep changing my mind And I can't get myself over you (wuhuúú)
- R: The moment you leave me
 The moment you're gone
 I don't think that I could last another minute
 But when we're together
 There's something so strong
 And I don't think that we will ever find a limit
 It's going on
- 2. Each time you were down
 I helped you on your feet but then
 Just as soon as you were ready too
 You leave me on my own again
 Cause time after time I keep changing my mind
 And I can't get myself over you
- R: The moment you leave me...
- *: When you lied that you love me
 And spoke promises that you couldn't keep
 How I tried to believe you when my tears they just cut so deep
 And I can't get myself over you
- R: The moment you leave me... (3x)
