

# Never Get Over You

Atomic Kitten

I'll never get over you

I turn around, I see your face,  
My head is just an empty space,  
Your kisses fade without a trace,  
Ooh I'll never get over you,  
Precious moments we were one,  
But you're life's changed and you've moved on,  
Thinkin' about you everyday,  
Ooh I'll never get over you

I need to feel you once again,  
Close to me remember when,

My heart is restless like the wind,  
I'm missin' something from within,  
Until you bring it back again,  
Ooh I'll never get over you  
Never get over, Never get over you  
Never get over, Never get over you

I don't believe I made you leave  
when you are strong and I'm naive,  
The feelings gone and now you're free  
but me  
I'll never get over you,  
Need some time to find my way  
waitin' for that brighter day,  
Let my love just fade away,  
Ooh and then I'll get over you

Time has come I realise,  
I shouldn't need you in my life

My heart is restless like the wind,  
I'm missin' something from within,  
Until you bring it back again,  
Ooh I'll never get over you  
Never get over, Never get over you  
Never get over, Never get over you

Ooh yeah, yeah

I need to feel you once again,  
Close to me remember when,

My heart is restless like the wind,  
I'm missin' something from within,  
Until you bring it back again,  
Ooh I'll never get over you  
Never get over, Never get over you  
Never get over, Never get over you
