

So Right

Atomic Kitten

I know we've only just begun
But something tells me you're the one
I saw the magic in your eyes
Boy, you took me by surprise
Is it an impossible turn
To realise what we could become

It's So Right (It's So Right)
It's so good (It's so good)
It's so clear (It's so clear)
Every single moment that you're here
It's So Right (It's So Right)
How I feel (How I feel)
I've fallen into love and it's for real

Everyday that passes by
I'm feeling things I can't deny
Never thought there'd be another
But with you I've now discovered
You're the one
All the times that we are apart
I feel an empty space in my heart

It's So Right (It's So Right)
It's so good (It's so good)
It's so clear (It's so clear)
Every single moment that you're here
It's So Right (It's So Right)
How I feel (How I feel)
I've fallen into love and it's for real

So good when you whisper to me
So Right when you touch and tease me
So good with your arms around me
Baby, don't you know it feels so good
So good when you whisper to me
So Right when you touch and tease me
So good with your arms around me
I've fallen into love and it's for real

It's So Right (It's So Right)
It's so good (It's so good)
It's so clear (It's so clear)
Every single moment that you're here
It's So Right (It's So Right)
How I feel (How I feel)
I've fallen into love and it's for real

So good when you whisper to me
So Right when you touch and tease me
So good with your arms around me
Baby, don't you know it feels so good
So good when you whisper to me (so good)
So Right when you touch and tease me
So good with your arms around me
I've fallen into love and it's for real
