

Use Your Imagination

Atomic Kitten

You say that I'm just using you
You think I don't care
It's not my style to mess with you
Gonna make you aware
I would not have you waste my time
Tell me what you've got in line

Use your imagination
Cos I'm achin'
For your body cos it's givin' me
Such palpitations
Pulse is racin'
Would you show me what you do to get to me

People say I misbehave
That I'm a little crazy
You know that room is not engraved
I tell you something baby
I'll show you but I would not mail
If you want to know me well

Use your imagination
Cos I'm achin'
For your body cos it's givin' me
Such palpitations
Pulse is racin'
Would you show me what you do to get to me

Got to get it right now
Baby lose your mind
There's so much more that's left uncovered
Got to change your view now
Better know it's true
You can find something new

Use your imagination
Cos I'm achin'
For your body cos it's givin' me
Such palpitations
Pulse is racin'
Would you show me what you do to get to me

Use your imagination
Cos I'm achin'
For your body cos it's givin' me
Such palpitations
Pulse is racin'
Would you show me what you do to get to me

Use your imagination
Cos I'm achin'
For your body cos it's givin' me
Such palpitations
Pulse is racin'
Would you show me what you do to get to me

Use your imagination

Cos I'm achin'
For your body cos it's givin' me
Such palpitations
Pulse is racin'
Would you show me what you do to get to me
