Little Bit of Inner Air

Atomic Rooster

Voodoo power in the air

Mushroom's sticky sweet flower just siiting there

I gave some to my love and she lost all her hair

I aint got nothing to give now 'cept a little bit of inner air Seven sunshine women in a bed

Imagaphonic idols and blow their heads

Black slipper crawled up thru' them but they just didn't care 'Cause I didn't have nothin' to offer them 'cept a little bit of inner air

Well I got somethin' ta say if you really want to get your way Put voodoo in that dark red wine and this is what they'll say They'll say really want for this and you tell 'em there's just a little bit of inner air
