

Before Your Very Eyes...

Atoms for Peace

The god of the window
Was passing you by
But you really want this
Then know

But your good look is
The keys to give

Soon or later
Soon or later
Soon or later
And before your very eyes
And before your very eyes
And before your very eyes

Or so your shoulders
Your look when you're older
Time's fickle card game
That you and I

You have to take your chances
The book of the guess

Soon or later
Soon or later
Soon or later
And before your very eyes
And before your very eyes
And before your very eyes

Soon or later
And before your very eyes
And before your very eyes
And before your very eyes
