

# Judge, Jury and Executioner

Atoms for Peace

Don't worry, baby  
It goes right through me  
I'm like the wind and my anger will disperse

Thin persecutors  
Your twisted whispers  
A horned reptile that is crawled upon the earth

I went for my usual walk  
Just tell it like it is  
Tell it like it was  
Judge and jury, executioner  
Judge and jury, executioner  
Judge and jury

When darkness follows  
And no tomorrows

It's all been decided  
All spies deceptive  
All bouncing voices down the echo chamber

Don't worry, baby  
It goes right through me

I went for my usual walk  
I went around the block  
I just can't talk or reason with my executioner  
Judge and jury, executioner  
Judge and jury

Been wasting trails  
You talk in layers

I went for my usual walk  
Don't worry, laugh about  
Just can't talk or reason with my executioner  
Judge and jury, executioner  
Judge and jury

Don't worry, baby  
It goes right through me  
I'm like the wind and my anger will disperse
