Honor

Resolute a stance of defiance Always teetering on the brink Nothing can hold you back when When you're not holding back a thing Open arms we embrace tomorrow Closed fists, tarnishing today We're not afraid to open our mouths and scream We believe in what we say

Like a whisper to the dusk An oath against the shadows Denying the dark Fight fight fight 'til the break of dawn Like a prayer unto the dawn In arms against the shadows Destroying the dark Fight fight fight 'til the break of dawn

Covered in sweat and blood Yet still our heads held high Actions have consequences When you live for foolish pride Been careful not to lose ourselves Stand together one passion, one hate We believe in a better tomorrow We believe in what we say

Like a whisper to the dusk An oath against the shadows Denying the dark Fight fight fight 'til the break of dawn Like a prayer unto the dawn In arms against the shadows Destroying the dark Fight fight fight 'til the break of dawn Fight fight fight 'til the break of dawn

We'll fight out battles we'll wage our wars Settle the scores with honor and blood We'll wear our scars like medals of hope Like medals of hope We'll fight out battles we'll wage our wars Settle the scores with honor and blood We'll wear our scars like medals of hope Like medals of hope Like medals of hope

Like a whisper to the dusk An oath against the shadows Denying the dark Fight fight fight 'til the break of dawn Like a prayer unto the dawn In arms against the shadows Destroying the dark (whisper to the dusk) In arms against the shadows Destroying the dark (whisper to the dusk)
