

## Down The Alleyway

### Atrocity Solution

Living underground with a vent above my head  
Sewage leaks down with a taste of ignorance  
People walk by you're invisible to their eyes  
No one even cares  
Someone once told me that I would be happy  
Some day, some time, some place in my mind  
But school was wrong once again it'll always be  
Look what it got me, look what it got me

There's a corporate mothafucka with a P.O. box  
And a homeless man with his dirty gray socks  
This great young man got The red white and blue  
Just because he got lucky stealing cash from you  
In This life you've gotta struggle to survive  
It's the upper classes choice whether you live or die  
They're always dropping the dime just reel you in  
You're a victim to their systems politicians that are fishing your fi  
ns

On the Street, tonight  
No money no food  
Just alone with this old street light  
This lonely road  
Leads back to the same old place  
I wish I had a home

Working dead end jobs but I know that will be fine  
Chasing after dreams once again we fell behind  
We're not gonna serve were just trying to get by  
The rich are getting rich as we've all been tossed aside  
Now it's time to go to sleep and say my prayers  
I thank the lord for never being there  
But god is dead he has forgotten me  
Look what it got me look what it got me

There's a corporate mothafucka buying all these stocks  
And a dirty old man begging for some rocks  
And were not gonna change the way it has to be  
Were scum of the earth as upperclass can see  
And thats the way our cards were dealt  
The chips are stacked but we fold in doubt  
And no matter how much they bring us down  
We'll still be here fuckin up their town  
As we  
All fall down  
Down the alleyway  
Wel-come home
