

Follow The Prisoner

Atrocity Solution

Follow the leader that's what you do
Individuality is not for you
You're too hip or too scene
Too fed up with your fucking dream

And this is what we say
Expand your conformity
And kill your fucking dreams
And this what we say

Dreams are your better place
Gotta do whatcha you can while you're still en laced
Gotta do whatcha you please not for the disease
Gotta kill the conformist and start your own dream

Follow the prisoner
Will the conformist
Follow the prisoner
Start your dream
