

# Freedom Is For The Dead

## Atrocity Solution

([Natural Born Killers:] "... there's a lot of people walking a round out there.

Already dead; just need to be put out of their misery's.")

I'll be free when I'm six feet under  
I'll be free when I'm six feet under  
I'll be free at the end of war

This war can never fucking end  
I'll be free at the end of time  
This time is torture for us all  
This is what we have done  
This is extinction for us all

This is the day you die  
The day we'll take it back  
This is the day you die  
Freedom's for the dead
