

Living in this world today  
Ain't so easy getting by  
And working nine to five  
Shouldn't be a life but still  
We try to carry on our lives  
The only way it's possible  
Living day by day drinking with  
The homies playing shows.  
Now I'm working for the man  
We bleed and sweat and fight  
Wars and little do you know  
We're all living behind bars  
But still we carry on fighting the  
Good fight while we're living  
Day by day in this motherfucken  
Hell we call life!

Everybody throw your hands in the air  
Cuz we're never going to end  
The generation without our share  
Without feeling a fear  
We stand tall against our enemies  
Parents, teachers, cops and this life  
I will not fall without a fight  
Our strength is strong we're free tonight

Sitting on the streets again  
With the paper and this pen  
Watching life just pass me by  
As these humans slowly die  
The time has come to make a change  
Of how we live or soon we'll pay  
For the damage thats been done  
We can't afford to see no more  
Go to church and pray for me  
And when we crash you'll surely see  
You'll be forced to save yourself  
From this hell that we have built  
But still we carry on fighting  
The good fight as were living day by day  
In this motherfuckin hell we call life  
This happens everyday  
Police just get a way  
Unpresented racist crimes  
Lets make them do the time!
