

# Streets Laced With Hate

## Atrocity Solution

Beat down by these cops, you're arrested again  
You've done nothing but scream since you've been charged by them  
But these stupid motherfuckers reach out and reach in  
Is this innocence lost? Incarcerated again

Oh no no, felony against their law  
Oh no no, sickening to what you saw  
[X2]

Beat down by the CIA and the feds  
Now the fuckin top copper has read you your rights  
This stupid motherfucker set you up for this heist  
Is this innocence lost, incarcerated for life

Wipe this scum up off the streets  
Let's cleanse the poor, let's heal the weak  
Let's kill off anyone who tries  
To get by us, to get behind these lies

This town is burning down for our great police  
This town is burning down if they want it to be  
This town, is burning down  
This town, is hell

Oh no no, felony against their law  
Oh no no, sickening to what you saw  
[X2]

Beat down by the CIA and the feds  
Now the fuckin top copper has read you your rights  
This stupid motherfucker set you up for this heist  
Is this innocence lost, incarcerated for life

Wipe this scum up off the streets  
Let's cleanse the poor, let's heal the weak  
Let's kill off anyone who tries  
To get by us, to get behind these lies

This town is burning down for our great police  
This town is burning down if they want it to be  
This town, is burning down  
This town, is hell

Burning down this town with the fires of their hate  
But we'll never stand down we refuse to be raped  
By these filthy racist pigs that control everything  
From the present to the future, so this is what we sing  
You can not own my mind, you will not own my soul  
Let's kill some fuckin cops, this town is ours  
To fight for everything, that's what we're fighting for  
Let's ride out into the night with this freedom we have died for

This town, is burning down  
This town, is burning down  
This town is burning down for our great police  
This town is burning down if they want it to be  
This town, is burning down

This town, is hell
