

## In My Veins

Atrocity

Fullmoon night in disguise, i look up to the eternal skies  
My mind infected evil, live my life not only twice  
I have wakened all the pain which grove the world insane  
You see the infernal black, you know me, I bring you  
Down, down on your knees  
you're tasting the disease, you see  
Never cross my ways  
Death, Death in my veins  
Hate, Hate in my eyes  
Your life was ended  
When you surrendered  
Just by my fingertip  
Deathn my veins  
Like an one thousand year darkened  
dominion - The field of the dead seed  
Burnt and withered, you would never  
consider to an once prospering land  
Day is night and night is day  
In the kingdom of the dead.
