

Kickin' Wing, Animal Doctor

Attack Attack!

We haven't had this much fun since Spring Break '96
That's right, I said it!
Let's do this, Oh yeah!
I'm rockin', I'm rollin', I'm ready to go
I'm up on the stage, I'm singing the notes
Are you ready to get lost tonight and lose all control?
When in doubt, when in doubt
He will save you
And you can be what you found on my head
I'll tape this up and tear it down
You'll look so wonderful dead
I'll tape this up and bring you down
This is not a test
So sad to see the way that you look at him
He sees right through you
He sees right through you
Come on, Tell me the truth, Tell me the time
That you wanted me to be
This is a lie, This is a strike
And you don't get three
I've taken all this time to show you my lines
To read you my rhymes
You'll never memorize
Please don't forget me
Now you have taught me how to live by grace
And I will do this until my dying day
How could I ever fall away from you?
You taught me how to live like Christ
And how to show my face in the worst of times
And all I can say is thank you
Take it, Here I owe you, All my affection
Take it, Here I owe you, All my affection
