## Daga I

## **Attak**

## Verse 1

Lets face it now, you're closer to the devil than you think Don't race it, you're living right on the brink Running round, no time to kiss the earth goodbye Hearing no sound, not a truth, a word or a lie

## Verse 2

You're rushing around, but its my life is what you say
No more lonely nights or painful days
No use now you've lost all control
Is it true you've finally reached your goal
