

# Face The Slayer

Attak

## Verse 1

Face the slayer she'll cut you down  
Try to fight she'll destroy your town  
She's got the strength but not the right  
To make you kill or make you fight  
Her colours blue but her eyes are red  
For the blood that she will shed  
Money corrupts her evil mind  
Morals and dignity she's left behind

## Verse 2

A piece of peace she's not got  
To run our lives she cannot  
She means good so she said  
She's gotta be out of her head  
The pain she gives give her back  
See the power that she lacks  
Face the slayer one more time  
See your life on the line
