

# What Do You Want

Attica Blues

Know you as a jet black angel  
Watching over me like cctv  
24/7 you see everything  
365 and i'm no mastermind

Dealt with mood swings mad behavior  
Controlling me like you own me  
Feels like it's your world i just live here  
365 and it's bad compromise

I want to know x2

Am i what you want or am i what you need x2

Patience wearing sent to test me  
Pressure building mercury rising  
Feels close to overload, feels close to overload  
365

I want to know x2  
I wanna know

Am i what you want or am i what you need x4

What do you want x2  
Am i what you want x2
