

## Holler At Ya Boy

Attila

Save your breath for the better things. tell it to someone who cares. I  
Didn't pay money to hear you complain. I just came to get my buzz on. I  
Just wanna party all night. so who will join me at the nearest bar? I  
Don't believe any lyrics people seem to write these days. they're singing  
Just to make that paycheck. their cause is fake. their cause is fake.  
Their cause is fake I don't believe it. so grab a blunt and come on. yeah  
Yeah yeah I didn't say I wanna party for nothing. so where the party at?  
Holler at ya boy! it's just another day in the life. I never question  
Where I've been or where I came from. I just came to get down. sipping a  
Cup of crown with two blunts in my back pocket. yeah. so come with me.  
Did you know good times is my middle name? so lets spark a blunt and  
Get a round of shots. now you can see that we get down. that's what's up.  
Were are caught up in a world of sin. so will you sink. or will you  
Swim. that is the question my friend. this world is tough and it's a  
Fight to the top I think were already there get up. or get out. you  
Will never make it here. holler at ya boy. let me see you move.
