

Get into the mood for worldwide confrontation  
Wise up to the words of Haig delivered through Reagan  
Exposing a commie campaign for world domination  
Let's have some more mass extermination  
Genocide down at the Sumpul river  
Children of eight can go and get raped  
Why don't you get a bayonet -  
mince up a peasant or two?  
Remember remember America's right behind you!

At all costs we've got to stop the Reds  
Who wants to hear about 1000 peasants lying dead

Remember the 50s and Mr. MacCarthy  
Let's have a witch hunt and nuclear party  
Reagan on TV - what a nice kind of guy  
He appears on the news without collar and tie  
He could press the button and he would survive  
He could rule the world cos he's got God on his side

Paranoia in America
