Sad Song

Au Revoir Simone

Play me a sad song 'Cause that's what I want to hear I want you to make me cry I want to remember the places that we left Lost to the mists of time

I know that you'll go soon You'll find out so take me with you always I know that you'll go soon You'll find out so take me with you always

On buses that move through the night We sleep on and on We got off at Memphis Black-top heat will make us thirsty We'll never get sick anymore

I know that you'll go soon You'll find out so take me with you always I know that you'll go soon You'll find out so take me with you always

Play me a sad song
'Cause that's what I want to hear
I want you to make me cry
I want to remember the places that we left
Lost to the mists of time
